THE EUROPEAN ASSOCIATION OF GEOCHEMISTRY

THE EAG IS THE PROUD ORGANISER OF GOLDSCHMIDT2009

The European Association of Geochemistry was founded in 1985 to promote geochemical research and study in Europe. The European Association of Geochemistry, together with The Geochemical Society (its partner North American based organization) co-sponsors all Goldschmidt conferences including the biennial European meeting.

The EAG also sponsors other European Geochemical meetings and workshops, and it awards medals for outstanding contributions to geochemistry including the Urey Medal, the Houtermans Medal, the Gast Lectureship and the Science Innovation Award. EAG members receive the journal *Elements* and reduced subscription rates for the EAG's journal, *Chemical Geology*.

The EAG invites you to become involved! Please attend the EAG general assembly at Goldschmidt 2009 on Monday June 22nd, 8:30am, for a very brief presentation of our activities and the opportunity to meet officers and council members. Keep up with the latest on European Geochemistry and find out more about your society at the EAG website: www.eag.eu.com

EAG OFFICERS

President: Eric Oelkers, CNRS, Toulouse FRANCE

Vice-President: Bernard Bourdon, ETH, Zurich, SWITZERLAND

Past President: Alex Halliday, Oxford University, UK

Treasurer: Christa Göpel, IPGP, Paris, FRANCE

General Secretary: Steven Banwart, University of Sheffield, UK

Business Office Manager: Marika Seletti, Toulouse, FRANCE

EAG COUNCIL

Serving until 12/2011

Bernard Wood, Oxford University, UK

Martin Novak, Czech Geological Survey, Prague, CZECH REPUBLIC

Liane Benning, University of Leeds, UK

Serving until 12/2010

François Chabaux, Strasbourg, FRANCE

Tim Elliott, University of Bristol, UK

Andreas Kappler, Tübingen, GERMANY

Serving until 12/2009

Chris Ballentine, Manchester, UK

Michael Walter, University of Bristol, UK

Lara Duro, Barcelona, SPAIN

Bernhard Wehrli, ETH, Zürich, SWITZERLAND

PROUD CO-SPONSOR OF GOLDSCHMIDT2009

MISSION

The Geochemical Society, founded in 1955, is a nonprofit organization for scientists involved in the practice, study and teaching of geochemistry. Our principal roles are to understand and meet the needs of our international membership so as to provide them with programs and services that will enrich their professional development and careers; and advance the application of chemistry to the widest possible range of geological and cosmological problems. Our sponsorship of the Goldschmidt Conference is a significant component of both these goals.

AFFILIATION

Many of our programs and activities are performed with other (sometimes many) scientific organizations. GS is an associated society of the Geological Society of America (geosociety.org), a member of the Council of Scientific Society Presidents (cssp.us), a member of the Council of Engineering and Scientific Society Executives (cesse.org), and has a liaison with the American Association for the Advancement of Science (aaas.org).

MEMBERSHIP

Our 3000+ members span more than 55 countries and have diverse geochemical backgrounds. Society members receive a subscription to *Elements* magazine as well as member discounts on publications, conferences and RiM&G short courses. For more information on Geochemical Society programs and member benefits, visit our website at www.geochemsoc.org

2009 BOARD OF DIRECTORS

President	Marty Goldhaber
Vice-President	Samuel Mukasa
Past-President	Susan Brantley*
Treasurer	Louise Criscenti
Secretary	Neil Sturchio
OGD Chair	H. Rodger Harvey*
OGD	Secretary Josef Werne*
SP Editor	Scott Wood
GCA Editor	Frank Podosek
GN Editor	Nicholas Wigginton*
Director	Yaoling Niu*
Director	Seth Krishnaswami*
Director	Marilyn Fogel*
Director	Victoria Bennett
Director	Simon Turner
Director	David Wesolowski

*Term ending this year

THE GEOCHEMICAL SOCIETY OF JAPAN

www.geochem.jp/english

President: Toshitaka Gamo, Tokyo Japan
Vice-President: Mitsuru Ebihara, Tokyo Japan

PROUD CO-SPONSOR OF GOLDSCHMIDT2009, DAVOS

The Geochemical Society of Japan (GSJ) was founded in 1953 for the advancement of research in geochemistry and related sciences. Thus the GSJ is one of the world's oldest geochemical societies. Our current members (about 1000) are from more than 10 countries and cover diverse geochemical disciplines. The primary missions of the GSJ are: to publish the latest research results through a rapid and efficient circulation; to provide useful information for the Society members and to promote geochemical literacy to the general public. To pursue these missions, the GSJ has cosponsored the Goldschmidt Conferences since 2003.

The GSJ welcomes your participation. The GSJ members receive a subscription to the *Geochemical Journal*, member discounts on GSJ publications, eligibility to be candidates for GSJ awards and to apply for Torii Endowment travel/meeting grants. The GSJ would greatly appreciate your input and discussion, as well as kind support for an involvement in the Geochemical Society of Japan. The GSJ hopes to expand the Society with the participation of the geochemists of wide generations from all over the world. For more information on the Geochemical Society of Japan and member benefits, please visit our website at www.geochem.jp/english/

GEOCHEMICAL JOURNAL

Executive Editor: Yuji Sano, Japan
Vice-Executive Editor: Daniele L. Pinti, Canada

The Geochemical Society of Japan publishes a bimonthly international journal, the *Geochemical Journal* (GJ). The most outstanding paper published over the previous year receives the Geochemical Journal Award. For more information on the GJ and the GJ Award, please visit our website at www.geochem.jp/english/

The Geochemical Journal has introduced a new category of manuscript: the *Express Letter*. *Express Letter* presents high quality short papers published with a minimal delay of less than four months. *Express Letter* provides prompt publication and disseminates timely results to the geochemists and cosmochemists throughout the world.
